

RENEWAL

The remarkable 2009 is here. **Team Discover** celebrates its thirty-fifth birthday this year - and what a year it's going to be! There will be no shortage of current economic, social and governmental problems just as there will be no shortage of problems lurking over the horizon.

Team Discover thanks you all for the business you have given them for the last thirty-four years. During their thirty-fifth year they are renewing their pledge to serve you. The team's service-driven attitude will rise and strengthen in their relentless pursuit of solutions to the problems of its vendors and customers.

The team appreciates your confidence in its ability to provide you with fair pricing and quality products. Team members know that if they want to be successful you must be successful.

In 2009 call **Joel Winspear, LaMar Detert, Vic Heyda, Frank Wynne** and **Scott Seeman** in Minneapolis at (763) 593-0160 or call **Ron Curio** in Madison at (763) 746-3477.

AMERICA PROUD

In a recent global survey of venture capitalists conducted by Deloitte that asked what country had the hottest technology, the United States was the hands down winner.

In the Telecommunications Industry, the U.S captured 57% of the votes; Japan was second with 12%.

In the Semiconductor Industry, including electronics, the U.S. received 70% of the votes; Taiwan was second with 10%.

The United States got 87% of the Software Industry vote; India was next with 6%.

In the Biopharmaceuticals Industry, the U.S. pulled 85% of the vote; Germany and Britain tied for second with 3% each.

The United States got 56% of the votes in the Clean Energy Industry; Germany was second with 21%.

America has served as innovation's homeland for a long time. Our citizens will work together to help make sure that despair does not blanket the vibrancy of the international economy.
